To all the staff at Hinton Wood

**Re: L                      DOE**

I just wanted to put into writing my appreciation for all that you have done for Leo since he moved in with you in June 2018. I cannot stress enough how valuable the support from staff has been to him. He has learned in that time how to accept support and help, he has learnt to repair relationships and his increased confidence in his own abilities to manage education, his job and life in general has been a joy to see.

The communication from staff and managers has been excellent throughout his time with you, I have never been left chasing information or waiting for important documents.

This is such a great move on plan for Leo and the fact you are all supporting him in this, with such a positive ending is something he has simply never had before.

Thank you to you all, I will really miss working with such a caring, child focused and efficient home.

Kind Regards

PP.
